1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Specification:

Page 1, first paragraph, after "09/964,953 filed 27 September 2001," --now US patent 6,696,887,-- has been inserted.

1. The following is an examiner's statement of reasons for allowance: the amendment filed 8/11/2006 has overcome the prior art of record. The prior art of record fails to teach or fairly suggest an AC output and a DC output from the third terminal of the transistor device for connection to a load, the AC output being a separate output from the DC output as called for in claims 35 and 47. Therefore, claims 28, 30-42, 44-48 and 50 are presently allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tuan T. Lam whose telephone number is 571-272-1744. The examiner can normally be reached on Monday to Friday (7:30 am to 6:00pm).
